

Crack Treatment Material, MS 5
Department of Transportation
5900 Folsom Boulevard
Sacramento, CA 95819-4612

Date: September 3, 2010
Prepared By: Larry Rouen, PE, (916) 227-5854

FLEXIBLE PAVEMENT CRACK TREATMENT MATERIAL

A crack treatment material will be considered for addition to the Department's approved list if the producer of the material submits a lab size sample, along with their certified test results. Approval will depend upon compliance with the specifications, based on the certified test results submitted, together with any replicate testing the Department may elect to perform.

Submit samples and test results to the address shown above.

Manufacturers are limited to a maximum of five approved products.

MANUFACTURER	PRODUCT NAME	CALTRANS TYPE
Deery American Corp.	Deery 180	3

The effective period for this list is indeterminate. Other products will be considered for inclusion on this list subject to evaluation and approval by the Department.
